

GIVE A GIFT THAT INSPIRES CHANGE.

This festive season, Anantara Riverside Bangkok Resort has selected and created sustainable gifts with focus on avoiding negative impacts on the environment. Not only are our hampers brimming with festive cheers, our unique festive hampers are both eco-friendly and meaningful.

ANANTARA HAMPERS

The **AIYARA (Elephant)** Hampers are made by a local community in the north using recycled paper and meticulously handcrafted into gift baskets. The **SARNRAK (Palm woven)** Hampers are made by a local river community in Bangkok using the indigenous mangrove palms that are delicately woven into sustainable baskets for various use. Both our hampers feature selected items that have been locally sourced and produced by native communities; and are fully endorsed and supported by the government.

ANANTARA SPA HAMPERS

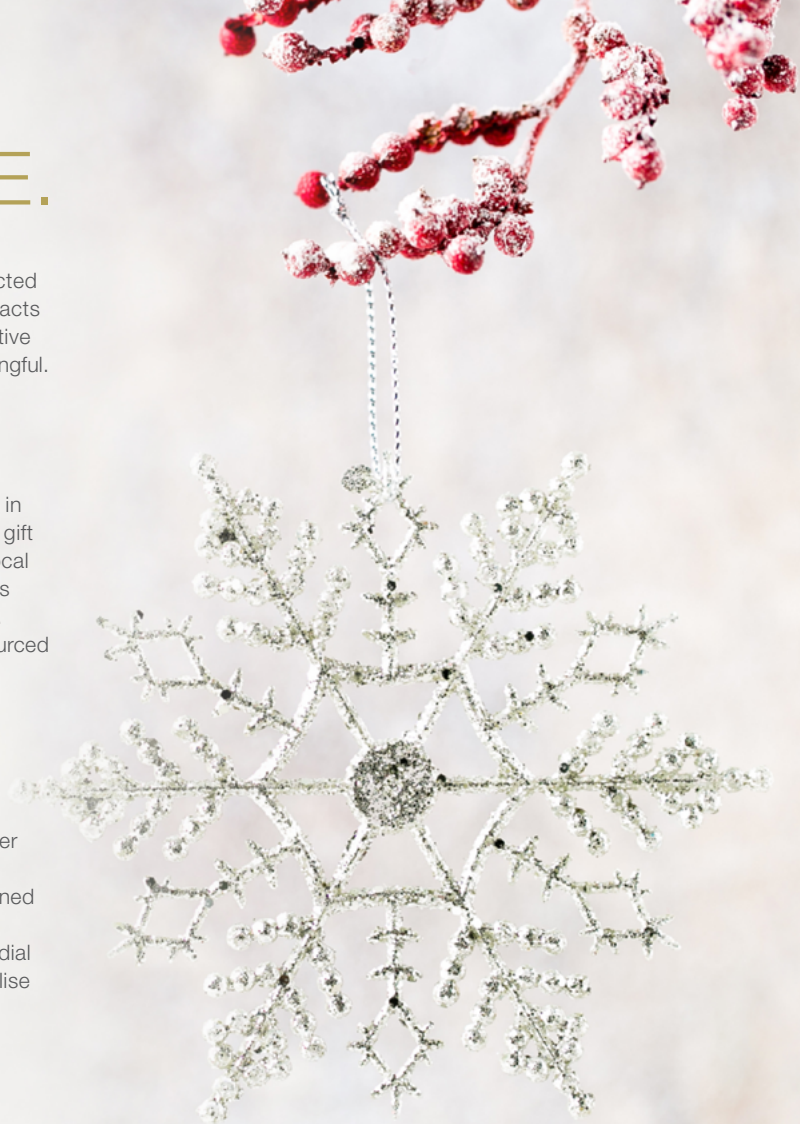

We have put together a delightful wellness festive hamper and offer the ultimate in home spa indulgence. Intoxicating aromas of the world's most exotic elixirs and oils are used in the products designed to deliver radiance, healing and a quiet sense of inner and outer well-being. Made with the use of simple natural ingredients, remedial scents of Thai herbs or exotic flowers, our products help to revitalise facial and skin care, nourish, firm and promote youthfulness.

HELP THE COMMUNITY

Our support of 'Green Gifts' is to keep our community products unique, support local jobs, improve the lives of the local community and most importantly in support of carbon footprint reduction while at the same time encouraging and inspiring others to do their part for a better tomorrow.

Help us 'Save the Planet' by placing your orders
